The EA Family of Smart Home Controllers

+ Family Room Entertainment

+ High-Resolution Multi-Room Audio

+ The Ultimate Smart Home Experience

Control4®

THE CONTROL4 FAMILY OF
SMART HOME SOLUTIONS

The EA Line of Smart Home Controllers

Entertainment is central to every smart home and controlling the sources of digital entertainment in even the simplest systems is complex. Add to that, the growing number of connected devices we acquire to simplify life and it's clear that smart homes need the automation horsepower only Control4 can provide.

The EA line of smart home controllers is purpose-built and priced to deliver the power, performance, reliability and high-impact entertainment for your smart home—whether in a single room or for an expansive property. Each model can automate and control all your entertainment equipment, in addition to lighting, security systems, climate control, door locks, cameras and more. With a single remote or a mobile app, you can control it all.

Powerful automation. Purpose-built for great entertainment.

- One remote controls everything in a single room—or around the home

- 24-bit high-resolution audio is standard

- Built-in streaming services from Deezer, Napster, Pandora, Rhapsody, TIDAL and TuneIn Radio

- Interoperates with over 9500 digital products

- Robust and reliable to power homes of any size

- Control4 mobile app keeps you connected whether you're at home or away

FAMILY ROOM
ENTERTAINMENT

Smart Entertainment For Every TV

Get your smart home started with an affordable smart entertainment experience that connects and automates all of your audio and video devices with a single remote.

• Watch a movie or your favorite TV show with the press of a button

• Easily control your music and entertainment from all of your favorite devices, including Amazon, Apple, Heos, LG, Roku, Samsung, Sonos, Sony, and thousands more

• Enjoy millions of songs and playlists at your fingertips with native streaming services like Deezer, Pandora, Rhapsody, TIDAL and TuneIn Radio

• On-screen TV navigation is fast and responsive, easy enough for the whole family to use

• Easy to enhance your entertainment experience by adding smart lighting, climate control and intelligent security
